CAREER OBJECTIVE

I am a Computer Science professional with a strong foundation in programming, web technologies, and software development. Along with technical expertise, I bring strengths in communication, adaptability, and teamwork, enabling me to connect with people and provide effective solutions.

PROJECTS

The Wild Oasis

[Link](#)

- A full-stack hotel/cabin management application using React, Supabase, React Query, and styled-components, with a responsive and modern user interface.
- Implemented user authentication and authorization, enabling secure access to different application features based on user roles.
- Built complete booking management functionality, including cabin reservations, check-in/check-out, booking details, and booking status management.

Otaku List

[Link](#)

- A responsive web application built using React and the Jikan API to fetch and display real-time anime data.
- Users can search, browse, and organize their favorite anime with detailed information such as genre, rating, and synopsis

Mapty : Plan the tracks

[Link](#)

- Integrated Leaflet.js to create an interactive world map that shows live weather conditions for selected locations.
- Technologies used - HTML ,CSS ,JavaScript
- Implemented using Object Orientation of Javascript

EDUCATION

Shri Ram Institute of Science & Technology

Aug 2023 - Present

- Bachelor of Technology in Computer Science Engineering
- CGPA - 7.3

Class 12th April 2022 - March 2023

- Ashoka Hall Senior Secondary School
- Percentage - 82%

Class 10th March 2020 - April 2021

- Ashoka Hall Senior Secondary School
- Percentage - 88%

SKILLS & ACHIEVEMENTS

- **Technical Skills** : Java, Spring, SpringBoot, Microservices, JWT Authentication, React JS, Next JS, React Router,TanStack Query, Supabase, SQL, J2EE, Servlets, JavaScript, Tailwind CSS, Git, GitHub
- **Soft Skills** : English Communication, Teamwork, Adaptability, Critical Thinking and Analytical Skills
- **Core Skills** : Data Structure, OOPS, DBMS
- **Achievements** : 1. 300+ Leetcode Problems
2. 20th Rank in GFG overall college student coding ranking
3. State Level Chess Player
